Are you caring for someone with dementia? We understand how challenging it can be to make meaningful connections with your loved one when words no longer work. Please join us to learn helpful tips and strategies for making the connections that are rewarding for both you and your loved one.

Hospice of the Valley is providing this, one-hour community presentation given by Christie Kramer. Christie, LMSW, joined Hospice of the Valley's Dementia Program staff in 2013 after obtaining her Master of Social Work degree from Arizona State University. Christie's from western Michigan and moved to the Phoenix area with her family in 2001. She worked in the eldercare field for over 8 years, collaborating with many community agencies to provide senior adults with resources and support in achieving their goals. Christie is now devoted to optimizing the quality of life for persons with dementia and their loved ones, through education, inspiration, and focus on each individual's unique life-story.
